Clinical education in womens' and childrens' health

Klinisk utbildning i kvinnors och barns hälsa

6.0 Credits

6.0 Högskolepoäng

Code: IA0003

Finalized by: Utbildnings- och forskningsnämnden, 2026-04-22

Valid from: Second half-year 2026 (2026-07-01)

Main field of study with advanced study: OMA07 Nursing Science - GXX First cycle, in-depth level of the course cannot be classified

Subject group: OM1 Nursing Science

Level within study regulation: First cycle

Disciplinary VÅ Health care 100%

domain:

Grading scale: UG Two-grade scale

Course modules

Clinical placement, 6.0 Credits

Entry requirements

Basic eligibility for university studies. Special authorization corresponding to nursing education.

Course description

The course includes clinical placement in nursing care in women's and children's health for exchange students.

Learning goals

After completing the course, the student should be able to:

Knowledge and understanding

- explain the aetiology, diagnostics, and management of common conditions within gynaecological or paediatric care,
- describe treatment strategies within gynaecology and paediatrics,

Skills and abilities

- apply the nursing process in collaboration with the patient and next of kin,
- apply safe pharmacological management,
- apply a professional approach towards the patient, next of kin, and the healthcare team in gynaecological or paediatric care,

Judgement and approach

- evaluate gender equality and equity and their significance in the care relationship within gynaecological or paediatric care.

Form of education

Teaching is conducted through clinical placement (VFU), supervision and continuous reflection; additional teaching activities may also occur.

Other regulations

Grading

To receive a passing grade, all examinations must be approved.

Clinical placement / Work-based education

The examiner may also, with immediate effect, terminate a student's participation if the student demonstrates serious deficiencies in knowledge, skills, or attitude such that patient safety or patients' trust in healthcare is at risk. If a student's participation in VFU is terminated in this way, the student fails the placement and the examination attempt is considered used.
